**2. international Wilson's
surgical course in penile implant
and incontinence surgery**

Training on body donors and live surgery

24. /25. October 2013

Invitation

Dear colleagues,

Rapid developments of medical devices, as well as rising expectations regarding modern penile implant surgery and male sling systems have encouraged us to organize this second international andrologic surgical workshop. This symposium will be highlighted by the presence of Prof. SK Wilson, a renowned expert in the field of implant surgery from California, USA. We are thus very proud to announce our Symposium as „Wilson´s surgical course in penile implant and incontinence surgery“. We shall discuss all medical aspects of Titan® OTR Zero Degree penile implant and Virtue® male sling, from primary implantations to salvage operations.

Moreover, we will add a surgical training course on body donors in the Anatomy Department of the University. These hands-on workshops will provide ample opportunity for practical experience and interaction between the participants. There will only be 2 to 3 participants per body donor, with 6 available in total. Prof. Wilson will demonstrate classic implantation techniques step by step and the participants will be able to follow and repeat all surgical steps on their own body donor, by watching the procedure on large HD flat screens which show images both of the top-view and an enlarged laparoscopic view.

On day 2, we will perform in vivo surgeries with two penile implants and one male sling in the operating room, with live video transmission into the conference room. The first surgery will be a classic reservoir implantation, the second one an alternative reservoir placement, while the third surgery will be a male sling implantation in a patient with urinary incontinence after radical prostatectomy. During the performance, the participants will have the opportunity to discuss the tricks and tips of each procedure with the surgeon. In the intervals during the surgeries, there will be presentations discussing all theoretical aspects.

This workshop will provide both experienced surgeons and beginners with a deep practical insight into penile implant and incontinence surgery.

We are looking forward to seeing you in Kiel.

Dr. D. Osmonov
Senior registrar Department of Urology and Pediatric Urology

Program

Agenda: Surgery on body donors

Thursday 24th of October 2013

Location: Institute of Anatomy / Center of Clinical Anatomy, Christian-Albrechts-Universität zu Kiel, Otto-Hahn-Platz 8, 24118 Kiel (use the front-entrance facing the Olshausenstrasse)

13.00	Surgery on body donors, Part I
	Implantation of Titan® OTR Zero Degree penile implants with the new generation Cloverleaf Reservoir in classic and alternative way of reservoir placement.
	Welcome and introduction T. Wedel/K.-P. Jünemann/D. Osmonov
	Presentations
	1. Introduction to the Center of Clinical Anatomy, ethical considerations T. Wedel
	2. Implantation of penile implant Coloplast Titan® OTR Zero Degree „step by step.“ Advantages of Titan® OTR Zero Degree implant S. Wilson
	3. Implantation of Virtue® male sling „step by step.“ First clinical experiences C.M. Naumann
14.40	Coffee break and visiting of the anatomy museum
15.00	Surgery on body donors, Part II
	1. Demonstration of predissected anatomical specimens with relevant landmarks for penile implant and sling procedures T. Wedel/D. Osmonov
	2. Implantation of penile implant Coloplast Titan® OTR Zero Degree with classic reservoir placement Surgeon: S. Wilson, Assistant: D. Osmonov
	3. Implantation of penile implant Coloplast Titan® OTR Zero Degree with alternative reservoir placement Surgeon: S. Wilson, Assistant: D. Osmonov
	4. Implantation of Virtue® male sling Surgeon: C.M. Naumann
	After the demo surgery all surgical procedures will be carried out by the participants on their own working stations/body donors.
17.00	End of course
19.00	Coloplast Dinner in „Kieler Kaufmann“

Agenda: Live surgery

Friday 25th of October 2013

Location: Auditorium of the Neurocenter, 4th floor, University Medical Center Schleswig-Holstein, Campus Kiel, Arnold-Heller-Strasse 3, Haus 41, 24105 Kiel

Live surgery: Implantation of penile implants Coloplast Titan® OTR Zero Degree and Virtue® male sling

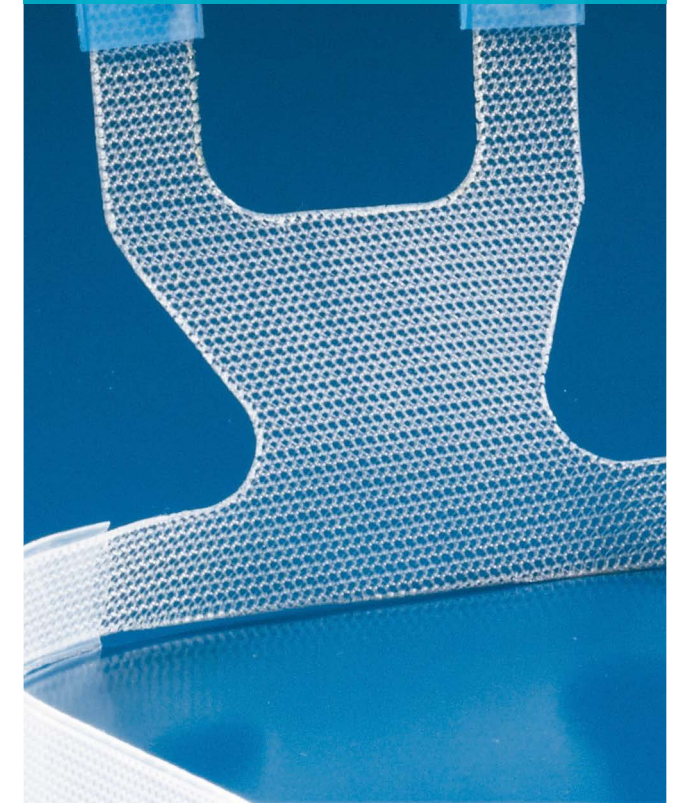

8.00	Live surgery
	1. Penile implant Coloplast Titan® OTR Zero Degree with classic reservoir placement Surgeon: S. Wilson
	2. Penile implant Coloplast Titan® OTR Zero Degree with alternative reservoir placement Surgeon: D. Osmonov
	Presentations (including 10 min discussion each):
	Welcome K.-P. Jünemann
	Kiel experience on penile implant surgery. The strategy of patients' recruitment D. Osmonov
	Penile implant surgery in patients after sex transformation M. Sohn
	Trouble shooting in penile implant surgery S. Wilson
10.30	Coffee break
11.00	Presentations
	Antibiotic regime in penile implant surgery. Is it the only way to prevent an infection? S. Wilson
	Why Coloplast Titan® OTR? Clinical outcome after implantation of different types of penile implants. T. Köhler
	Rehabilitation of erectile function after prostate surgery. Our experience A. Bannowsky
	Discussion
12.30	Lunch
13.30	Live surgery
	Implantation of Virtue® male sling Surgeon: C.M. Naumann
	Presentations:
	Why Virtue®? Anatomical aspects S. Wilson
	Surgical options in the treatment of male incontinence C.M. Naumann
	„My life before and after penile implant.“ Patient's experience report. A Patient of the Department of Urology and Pediatric Urology (requested)
15.00	Discussion and closing remarks D. Osmonov
15.30	End of course
