Attendance fee

For participants in both surgery on body donors
(Thursday) and live surgery (Friday): 400 € (special
reduced price due to Coloplast's sponsoring)

For participants in live surgery only (Friday):
Senior physician 70 €
Resident physician 50 €
Students: entrance free

**3. international Wilson's
surgical course in penile
implant surgery**

Training on body donors and live surgery

27. /28. November 2014

Invitation

Dear colleagues,

We are looking forward to welcoming you in Kiel to the 3rd international andrological Wilson’s workshop: Surgical Course, Cadaver and Live Surgical Workshop on penile implants. We feel lucky that we have been able yet again to engage Prof. SK Wilson, a renowned expert in the field of implant surgery from California, USA. The success of the first two workshops has encouraged us to organize this event again. This course is addressed both to colleagues who are about to initiate penile implant surgery in their home institutions and to experienced penile surgery experts looking for the latest updates.

Over the last years, there have been revolutionary improvements in the Coloplast implant, which offer new opportunities for the benefit of the patients. We shall discuss all medical and technical aspects of Titan® penile implants by presenting the new “Touch” pump of the Titan® model. Furthermore, we are going to show different application scenarios from primary implantations to salvage operations.

The unique highlight of the symposium on day one will be a surgical training course on body donors in the Institute of Anatomy. This hands-on workshop will provide ample opportunity for practical experience and interaction between experts and participants. There will be two to three participants and one expert per body donor. Prof. Wilson will demonstrate an implantation step by step, and the participants will be able to repeat all surgical steps on their body donor, while being able to follow the procedure on large flat screens with images of both the top-view and an enlarged laparoscopic view.

For day two, we have scheduled three in vivo surgeries with live video transmission to the conference room. During the performance, the participants will have the opportunity to discuss the tricks and challenges of each procedure with the surgeon. In the intervals between surgeries there will be presentations discussing all theoretical aspects.

We will be happy to welcome you in Kiel.

Dr. D. Osmonov
Senior registrar Department of Urology and Pediatric Urology

Program

Agenda: Surgery on body donors
Thursday 27th of November 2014

Location: Institute of Anatomy / Center of Clinical Anatomy, Christian-Albrechts-Universität zu Kiel, Otto-Hahn-Platz 8, 24118 Kiel (use the front-entrance facing the Olshausenstrasse)

13.00	Surgery on body donors, Part I
	Implantation of Coloplast Titan® penile implants with the new “Touch” pump of the Titan® model in classic and ectopic way of reservoir placement.
	Welcome and introduction K.-P. Jünemann / J. Sievers
	Presentations
	1. Ethical characteristics of the work with anatomical specimens T. Wedel
	2. Implantation of Coloplast Titan® penile implants with the new “Touch” pump „step by step.” S. Wilson
14.40	Coffee break and visiting of the anatomy museum
15.00	Surgery on body donors, Part II
	1. Demonstration of predissected anatomical specimens with relevant landmarks for penile implant T. Wedel / D. Osmonov
	2. Implantation of Coloplast Titan® penile implant with the new “Touch” pump with classic reservoir placement Surgeon: S. Wilson, Assistant: D. Osmonov
	3. Implantation of Coloplast Titan® penile implant with the new “Touch” pump with ectopic reservoir placement Surgeon: S. Wilson, Assistant: D. Osmonov
15.45	After the demo surgery all surgical procedures will be carried out by the participants on their own working stations/body donors.
17.15	End of course
19.00	Coloplast Dinner in „Kieler Kaufmann”

Agenda: Live surgery
Friday 28th of November 2014

Location: Auditorium “Hörsaal Alte Chirurgie”, University Hospital Schleswig-Holstein, Arnold-Heller-Strasse 3, Haus 11, 24105 Kiel

Live surgery: Implantation of Coloplast Titan® penile implants with the new “Touch” pump of the Titan® model

8.00	Live surgery
	1. Virgin implantation of Coloplast Titan® penile implant with the new “Touch” pump with classic reservoir placement Surgeon: S. Wilson
	2. Virgin implantation of Coloplast Titan® penile implant with the new “Touch” pump with ectopic reservoir placement Surgeon: D. Osmonov
	Presentations (including 10 min discussion each):
	Welcome K.-P. Jünemann
	Kiel experience on Titan® penile implant with the new “Touch” pump. Classic and ectopic reservoir placement D. Osmonov
	Yes you can! How I started. Patient’s enlightenment T. Kohler
	Rehabilitation of the erectile function after prostate surgery. The Kiel concept. A. Bannowsky
10.30	Coffee break
11.00	Presentations
	Prevention of infection due to penile implants. Main principles and tactical tricks. S. Wilson
	Trouble shooting. A word of wisdom. S. Wilson
	Discussion
12.30	Lunch
13.15	Live surgery
	Modeling or 16 dots procedure during the implantation of Coloplast Titan® penile implant with the new “Touch” pump as a treatment option for Peyronie’s disease. T. Kohler
14.30	Coffee break
14.45	Presentations: Penile implants in Germany. Financial considerations A. Schattka
	Current conservative und surgical treatment options in Peyronie’s disease. G. Hatzichristodoulou
15.00	Discussion and closing remarks D. Osmonov
15.30	End of course
