Dear Professor Scholz,

On behalf of all medical workers in Ukraine, let me express my sincere gratitude to you for providing Ukrainian hospitals with medical equipment.

Russia's aggression in Ukraine has created many problems, including disruptions to our healthcare system and infrastructure. At this moment of great need, we must continue to provide quality healthcare and life-saving healthcare services. Your support allows us to continue to care for our patients as the fighting intensifies and the toll rises.

We thank you for your generosity, dedication, and support in helping our patients and the people of Ukraine.

I reaffirm our willingness to cooperate at all levels and look forward to continuing our communication.

Best wishes,
