Professor Jens Scholz  
University Hospital Schleswig-Holstein

Dear Professor Scholz,

On behalf of the whole team of the Rivne Regional Clinical Hospital, let us extend our sincere gratitude for providing Ukrainian hospitals with medical equipment. Thanks to you and your hospital's support, we will be able to provide our patients with the necessary care they urgently need.

Russia's aggression in Ukraine has created numerous challenges, including disruptions to our healthcare system and infrastructure. In this moment of tremendous need, it is critical that we continue delivering quality medical care and provide lifesaving health services. Your support enables us to continue caring for our patients as the hostilities intensify and the number of victims rise.

Especially from the Rivne Regional Center of Planned Surgery and Transplantology, we would like to express our special gratitude for Dräger Atlan® A350, which helps to increase the work efficiency of our operating rooms. Thanks to this device, our patients receive much more effective and of high quality treatment. All of us are so grateful for your generosity, dedication, and support to help our patients and the people of Ukraine.

We reaffirm our willingness to collaborate at all levels and we look forward to our continue communications.

Sincerely,

**General Director  
of the Rivne Regional Clinical Hospital**

**Head of the Regional Center  
of Planned Surgery and Transplantology**

**Victor Tkach**

**Andriy Zhilinsky**
