2nd International Workshop on
**Less Invasive Surfactant
Administration – LISA**

Lübeck, Germany, Friday, August, 27th 2021

Welcome

Dear colleagues,

in the last 20 years non-invasive ventilation has become more and more popular. This trend promoted the search for new techniques also to deliver surfactant to spontaneously breathing preterm infants with respiratory distress syndrome.

The second international workshop on Less Invasive second Surfactant Administration (LISA II) brings together experts from all over the world that have contributed to this concept.

The medieval town of Lübeck will hopefully be an inspiring venue for fruitful discussions on topics like:

Where does LISA come from?

Where are we now?

Where will LISA move in the future?

We are grateful to all speakers from the faculty and acknowledge and the contribution of the sponsors that made this meeting possible. Due to the pandemic we will make use of a digital format as well. This will allow the participation of colleagues that still suffer from travel restrictions.

The main sponsor is the German Research Council (Deutsche Forschungsgemeinschaft (DFG)) which also reflects the growing scientific interest in this field.

Looking forward to welcome you in Lübeck.

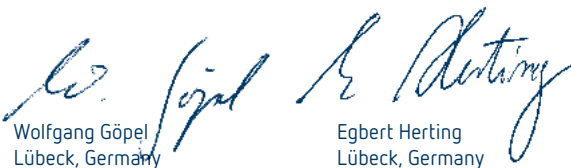

Yours

Peter Dargaville
Hobart, Australia

Angela Kribs
Köln, Germany

Wolfgang Göpel

Egbert Herting
Lübeck, Germany

Scientific committee of LISA II

Program

Friday, August 27th, 2021

Time	Topic
	LISA – the background Chairpersons: W. Göpel / P. Dargaville
8.30	Opening E. Herting
8.40	LISA in 2021 – reasons to be OPTIMISTic? P. Dargaville
9.00	Soft landing – obstetrical aspects – delivering a breathing infant V. Bossung
9.20	Delivery room management before LISA A. Kribs
9.40	Respiratory management before and after LISA G. Lista
10.00	IN-REC-SUR-E / IN-REC-LISA – Latest News G. Vento
10.10	Discussion
10.30	Coffee Break
	LISA – Technical aspects / alternatives – today and in the future? Chairpersons: K. Klebermass-Schrehoff, O. Saugstad
11.00	CPAP failure, LISA and mechanical ventilation C. Roehr
11.20	How to train LISA M. Vento
11.40	Nebulised surfactant – any good? D. Sweet
12.00	Pharyngeal deposition – any progress? C. O'Donnell
12.20	Surfactant via laryngeal mask – a realistic option? K. Roberts
12.40	Discussion
13.00	Lunch
	Hot topic: Sedation / Analgesia for LISA ? Chairpersons: U. Felderhoff-Müser, M. Vento
14.00	To sedate, or not to sedate...? I. Reiss
14.20	Practical strategies for analgesia: from positioning over glucose to morphine K. Klebermass-Schrehof
14.40	Is propofol best? J. Dekker
15.00	Is ketamine best? M. Chevallier

Time	Topic
15.20	Discussion
15.30	Coffee Break
	LISA, any risks? LISA, any good? Chairpersons: R. Maier, A. Kribs
16.00	LISA – a word of caution! V. Carnielli
16.20	Short-term outcome / complications C. Härtel
16.40	Long-term outcome W. Göpel
17.00	LISA 2021 – where to from here? E. Herting
17.20	Discussion, Summary
	End of workshop
	Dinner

10 Fortbildungspunkte sind von der Ärztekammer Schleswig-Holstein anerkannt

Scientific committee

Peter Dargaville (Hobart, Australia)
