24th Symposium

Symposium on Neonatal and Intensive Care Medicine

Saturday, November 14th 2026, 9–15 h

Stabsstelle Integrierte Kommunikation, G. Weinberger, Stand Juli 2026

Welcome

Dear colleagues and friends,

the 24th meeting of this kind reflects the progress that has happened in neonatology and paediatric intensive care over the last 30 years.

The introduction of surfactant into clinical care was a remarkable milestone in this aspect changing the prognosis of respiratory distress syndrome (RDS), a disease that had a fatal outcome for so many tiny infants before. This meeting focuses on the advances that have been made especially in the management of respiratory diseases in the neonatal period.

Surfactant research also promoted the need for randomized controlled multicentre studies, which connected neonatology in Germany with many countries in Europe and even abroad.

Scientific cooperation and personal friendship arising from that really became drivers of progress directly improving the outcome of neonates.

This meeting tries to summarize some of this development and we are extremely happy to welcome such internationally known experts to Lübeck.

We look forward to intense discussions.

The old and the new are so close together in Lübeck!

PD Dr. G. Stichtenoth

Prof. Dr. W. Göpel

Prof. Dr. E. Herting

Program

Friday, November 13th

Time	Topic
17.00	Get together and walk to social event
20.00	Dinner

Saturday, November 14th

	Surfactant – then and now Chair: W. Göpel, M. Obladen
9.00	Opening. 40 years of Surfactant a personal view – E. Herting
9.20	History of Surfactant – from bench to bedside – M. Hallman
9.40	History of Surfactant – the way into clinical reality – T. Curstedt
10.00	Use of Surfactant in 2026 – State of the art – D. Sweet
10.20	Coffee Break
	Surfactant – any progress? Chair: O. Saugstad, C. P. Speer
11.00	Why do we still lack a good synthetic Surfactant? – J. Johansson
11.20	Surfactant for other indications than RDS - any good? – A. Calkovska
11.40	Surfactant in China – B. Sun
12.00	How to predict/diagnose RDS? – G. Stichtenoth
12.20	Lunch
	Beyond Surfactant ... Chair: C. Härtel, M. Rüdiger
13.30	How to start in life? – A. Kribs
13.50	How to avoid lung injury? – C. Röhr
14.10	Oxygen – yes or no? A never ending story – M. Vento
14.30	Neonatal care with focus on the families – K. Bohlin
14.50	Farewell – E. Herting
15.00	Coffee and Cake

Faculty

Wolfgang Göpel, Lübeck, Germany
Michael Obladen, Freiburg, Germany
Ola Saugstad, Oslo, Norway
Christian P. Speer, Würzburg, Germany
Christoph Härtel, Würzburg, Germany
Mario Rüdiger, Dresden, Germany
Egbert Herting, Lübeck, Germany
Mikko Hallman, Oulu, Finland
Tore Curstedt, Stockholm, Sweden
David Sweet, Belfast, Nothern Ireland
Jan Johansson, Stockholm, Sweden
Andrea Calkovska, Martin, Slovakia
Bo Sun, Shanghai, China
Guido Stichtenoth, Lübeck, Germany
Angela Kribs, Cologne, Germany
Charles Röhr, Bristol, United Kingdom
Max Vento, Valencia, Spain
Kajsa Bohlin, Stockholm, Sweden

Fortbildungspunkte bei der Ärztekammer SH sind beantragt.
